EXPERIENCE

QSpiders Gurugram

Aug. 2025 – Aug. 2026

Data Analytics Trainee

Gurugram, India

- Completed hands-on training in SQL, Advanced Excel, and Power BI, with a focus on data extraction, cleaning, analysis, and dashboard reporting.
- Performed exploratory data analysis and visualization on real-world datasets using Pandas, NumPy, and Matplotlib to identify trends and patterns.
- Wrote SQL queries using joins, aggregations, and subqueries for data retrieval and manipulation across relational tables.

PROJECTS

NovaFlix | Python, Pandas, Scikit-learn, SQL, FastAPI | 🌐 GitHub | 🌐 Live

March 2026

- Independently designed and built a content-based movie recommendation engine spanning 7,200+ movies and 300+ anime titles, using TF-IDF vectorization and cosine similarity across genres, cast, crew, and keywords.
- Delivered personalized recommendations in under 3 seconds via a FastAPI backend, with a React/Vite frontend integrating live TMDb API data for posters, ratings, and trailers.
- Deployed and maintained a production system (Vercel + Render) featuring mood-based filtering, user profiles, and watchlist tracking.

RealityML | Python, Pandas, Streamlit, FastAPI | 🌐 GitHub

May 2026

- Independently built a data risk assessment tool that scans datasets for bias, leakage, and low signal-to-noise ratios before analysis.
- Designed a synthetic data generator producing 100+ features across churn and real-estate datasets for testing analytical models.
- Built an interactive Streamlit dashboard to visualize data quality metrics and feasibility scores.

Nova AI | Python, Flask | 🌐 GitHub

December 2025

- Independently developed a hybrid AI assistant integrating local (Ollama) and cloud-based models (Gemini, OpenRouter) with web search retrieval, served through a Flask web UI.

EDUCATION

Mewat Engineering College, Nuh

Aug. 2022 – May 2026

Bachelor of Technology in Computer Science and Engineering, CGPA: 7.54

Nuh, Haryana

- *Relevant Coursework:* Data Structures, Linear Algebra, Probability & Statistics, Machine Learning, DBMS

CERTIFICATIONS

NPTEL (IIT): Artificial Intelligence – Concepts & Techniques, Introduction to IoT

Jul. – Aug. 2025

Cisco Networking Academy: Data Analytics Essentials, Introduction to Data Science

Jan. – Feb. 2026

SKILLS

Data Tools : SQL, MS Excel (Advanced), Power BI

Languages/Libraries : Python, Pandas, NumPy, Matplotlib, Scikit-learn

Other : FastAPI, Flask, Git, VS Code, Jupyter Notebook
